

# Science One-Pager

## CHAPTER 11, SECTION 1 (pg. 281- 287)

You are assigned a one-pager to complete. Your teacher will assign a specific section in your textbook that will be used to complete the One-pager. All information on your one-pager must be from the assigned pages only!!! Your one-pager must fit on one sheet of unlined (plain) 8.5" x 11" paper. (You can use front and back).

First, **create a border around your page and be creative!! Your full name, period #, due date, and Chapter and Lesson assigned must be in the top right hand corner.**

### 4 One-pager categories:

1. **Vocabulary Words.** Vocabulary words are highlighted in your textbook. Write the word and its definition.
2. **Draw and LABEL 3 different illustrations.** Illustrations must be hand drawn pictures about something covered in the assigned pages.
3. Complete the **Section Assessment (#1-5) found at the end of the section.**
4. Write an **“I learned sentence** about what you learned from these pages. The sentence must begin with “I learned that”. Good example: “I learned that there are 3 types of rocks; igneous, sedimentary, and metamorphic”. Incorrect example: “I learned about rocks”.

### **Also:**

**\*\*One-pagers are meant to be hand written, NOT computer generated. \*\* Best to do all of the written work first, then decorate and color!**
